Delrin® acetal resin

Delrin® Global Product

Pushing the Limits: Delrin® High Performance Acetal Solutions

Delrin® bridges the gap between metals and ordinary plastics with a unique combination of strength, stiffness, hardness, dimensional stability, toughness, fatigue resistance, solvent and fuel resistance, abrasion resistance, low wear and low friction.

Finding the Solution to Fit Your Need

Choose from our wide range of Delrin® acetal resins to meet the needs of your application. Just click the links for additional information about materials of interest to you.

50 Years Young

See how Delrin® helps designers and engineers create new products and improve the quality, reliability and cost position of many existing products. Celebrate 50 years of Delrin® here.

What's new. Find out about new grades with properties tailored for emerging market needs. Current features include new Low Emission Homopolymer grades, new Low Vibration / Low Friction resins, a new Toughened grade, and a new UV resistant grade.

Standard high-performance resins. You can choose from a wide range of general-purpose Delrin® resins to meet most property and molding requirements. Select your region: [America](#), [Europe](#), [Asia Pacific](#).

Something special. Click the links below to learn about Delrin® resins tailored for special needs.

Characteristics

- [Superior toughness and stiffness combined, Delrin® 150 series](#)
- [Reduced wear and friction](#)
- [Improved UV resistance](#)
- [Extra toughness, impact resistance](#)
- [More stiffness and strength \(glass-reinforced and filled\)](#)

Applications

- [Laser marking capability](#)
- [Gear solutions](#)
- [Connector solutions](#)
- [Door Systems](#)
